

The valve that saves money...

...now does it twice as fast.

Introducing the CP961[®] Multi 'push fit' isolation ball valve. It has all the features of the standard CP961[®] Multi but with the added advantage of being even quicker and easier to fit courtesy of 'push-fit' from **JG Speedfit**. Which means that your customers can benefit from saving water and energy in a fraction of the usual time and you'll be onto your next job even quicker.
